Claims 11-16 stand rejected as set forth in the office action dated 11.20.02.

Applicant's arguments filed 3.11.03 have been fully considered but they are not persuasive. With respect to applicant's arguments in paragraph B, it is noted that Anguera '191 teaches the method of concurrently compresses his boards vertically and transversely, note fig.13, thus B has been satisfied. With respect to paragraph A, it is noted that both Larsen and Anguera '395 teach the use of boards having the claimed cross sectional shape for applicant's disclosed purpose using the boards as a scaffold plank and panels for walking on, respectively. Thus both Larsen and Anguera '395 cure the deficiency of A. With respect to paragraph C, applicant concedes that Lewis cures the deficiency of C. it is noted that F is the combination of B and C, thus F has been met. Applicant's arguments with respect to Larsen and Anguera '395 with respect to the pinning of their boards when their pinning method was not relied upon are not persuasive. With respect to the alternating of the wood grains, ~~in the previous of the parent cases~~ applicant admit the alternating of wood grains is a conventional practice, nevertheless, the prior art cited by applicant shows alternating wood grain in side by side wood boards, by the conventional method lines drawn in the body of wood boards to show wood grain orientations (this practice was also used by applicant to show the wood grains of his board), note, Allen at line 20 in fig.8, Bouton in fig. 1, Anguera '395 at 100,

and Larsen in fig. 5. Also note, Soviet pat. 446606 to Varna, and Brown showing alternating wood grains.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
